30. InfoTechDay

HERZLICH WILLKOMMEN!

Digitalisierung

A futuristic digital cityscape with glowing red and white buildings and a grid floor. The scene is filled with vertical lines and glowing particles, creating a sense of depth and connectivity. The overall color palette is dominated by reds, whites, and greys.

Ausbau Rechenzentrum

Interne Prozesse

The background of the image is a dark grey gradient with a dense stream of red binary code (0s and 1s) falling from the top, reminiscent of the 'Matrix' effect. In the lower right corner, a human hand is shown in silhouette, holding a glowing red sphere that appears to be composed of many small, bright red dots, representing a digital object or data point.
